Allies Again Walk Out On Reds At Truce Negotiations

MUNSAN, Korea (AP)—United Nations truce negotiators walked out on the Communists again today as the senior Red delegate was talking. They said they wouldn't be back for three days.

North Korean Gen. Nam Il's interpreter was saying "I have something more to say" when Maj. Gen. William K. Harrison declared:

"There being no further business to transact today we are now leaving and will return June 21. Our liaison officers are available for necessary meetings."

Brig. Gen. William P. Nuckolls, U. N. spokesman, said that when Harrison walked out the Reds broke out in "apparently rehearsed laughter" which was supposed to have been derision, I imagine.

Second Forced Recess Harrison said, "We hope they will think the matter over" and realize that the U. N. proposal for settling the truce blocking issue of prisoner exchange is final.

It was the second time in less than two weeks that Harrison had forced a three-day recess. The U. N. says no prisoner will be forced to return. Only 70,000 of 169,000 Allied POWs have expressed willingness to be repatriated.

Today's walkout came at the end of a 32-minute meeting at which Nam delivered what Harrison called a "bitter and belligerent" propaganda assault on the Allies.

Prior to the plenary session, Communist liaison officers delivered a note rejecting a U. N. charge that five POW camps in North Korea were not properly marked.

Repulse 3 Attacks SEOUL, Korea (AP)—Chinese Communists today shot off their big guns at probably the fastest clip of the Korean War. They failed to budge United Nations infantrymen defending a T-shaped knobby hill.

A battalion of about 750 Chinese struck at the hill three times in 2 1/2 hours today and were turned back each time by bayonet-wielding U. N. doughboys standing fast at the bottom.

The six-day-old fight for the Western Front high point near Chorwon is the biggest and bloodiest since January. Allied troops, who won a foothold last Thursday, now hold three of its rocky knobs. The Reds have been counterattacking bitterly.

A U. S. Eighth Army briefing officer said shelling by both sides was "very heavy" yesterday and that the pace held up today.

The Eighth Army reported its forces last week killed 1,738 Reds, wounded 1,497 and captured 47—the highest Red casualty figure since the third week in January.

Firemen And Cops Seize Escaped Duck

Borough police and the anniversary celebration committee of the Gettysburg Fire Company combined Monday evening in a "duck hunt" to restore a missing donation—one duck—to the solicitation committee for the fire company festival.

The duck had escaped, after being donated, to the fields near the Central Chemical Co. plant along the Hunterstown Road. The posse sneaked into the field and surprised the duck.

All ended well, however, and the duck is now killed, cleaned and in the deep freeze awaiting the annual festival in July, firemen said.

FRANK FRENCH NOMINATED FOR COMMANDER OF STATE U.S.W.V.

Frank A. French, Latrobe R. 3, a machinist in Latrobe for the past half century, and a member of the 18th Pennsylvania Infantry in the Spanish-American War, today seemed certain of election as the new department commander of the United Spanish War Veterans.

French, commander of the John W. Brady post of the USWV, and

currently senior vice commander of the Pennsylvania Department, was nominated without opposition for the post of commander at Monday afternoon's session of the three-day convention of the USWV being held at the court house here.

The election of officers will take place Wednesday morning and they will be installed at the final sessions of the encampment.

Only One Contest Nearly all of the officers to be selected for next year were named without opposition at Monday's session. The only post for which there is a contest is that of junior vice commander. Officials of the USWV said that the normal practice of the organization is to move officers up "through the chairs," with a contest always for junior vice commander.

The two men named for that post are Charles F. Holl, Westmoreland, who was department adjutant in 1948 and 1949, and Perry A. Jones, of Pittsburgh.

Other nominations include: For senior vice commander, present Junior Vice Commander John W. D. Alloway, Philadelphia; department inspector, John A. Zimmerman, Chambersburg St., and for chaplain, Norman W. Ream, (Please Turn to Page 2)

Three camporee projects will be required as well as efficiency, tent-peg making, rope work, distance judging and compass. Conditions of camp sites as well as kitchens also will be checked throughout the session. Arrangements are in charge of Nicholas D. Murphy, district camping chairman.

GEN. A. S. NEVINS INDUCTED INTO ROTARY MONDAY

Gen. Arthur S. Nevins, manager of the Eisenhower farm, was inducted into the local Rotary Club Monday evening at a service conducted by William C. Tyson.

At the conclusion of the ceremony, at the request of President Bruce N. Wolff, General Nevins told of the recent visit by General Dwight D. Eisenhower to his farm here during which he entertained the Pennsylvania delegates and alternates to the Republican National Convention "and the press and photographers," as General Nevins put it.

Stating that the reception was "a little hard to describe," General Nevins said General and Mrs. Eisenhower were "old and dear friends of ours." Nevins added that when he entered the army in 1917 as a second lieutenant, General Eisenhower, then a captain, was a member of the same regiment. A short time later Captain Eisenhower was transferred to Camp Colt, Gettysburg.

Lauds Firemen "The lunch prepared for the Eisenhower reception by Mr. Scharf (Henry M. Scharf, manager of the Hotel Gettysburg) was excellent," General Nevins said. He paid tribute to the fire company, "who came out and sprinkled the road to cut down the dust (Please Turn to Page 2)"

More Briefs On Ike's Return

More and more favorable comments and unexpected reactions continue to come forth following the highly successful meeting General Dwight D. Eisenhower had with the Pennsylvania delegation to the Republican National Convention at his farm here Friday.

As an emergency measure 16 members of the Gettysburg Fire Company were on duty at the farm to protect the buildings in event of a fire and to wet down the grounds, driveways and lanes which were heavily used throughout the day.

Among the firemen serving were: Chiefs Donald Jacobs, Donald McSherry and Donald Staub, Paul Oyler, Cyril Staub, Francis Stevens, Eugene Sickles, Howard Hankey, Richard Finkboner, Rufus Reaver, Donald Folkenroth, Billy Shealer, Ralph Johnson, Julius Swope Russell Staley and Joseph Claybaugh.

John D. Teeter, local contractor, rendered yeoman service when he hurriedly "rebuilt" the back road into the farm to accommodate the cars of distinguished guests, the buses for the delegates and alternates and the several hundred reporters, photographers, radiomen and telecasters. The road was almost impassable on Thursday. On Friday it had been so rejuvenated that many thought it was a completely new highway.

More reporters and photographers covered the Eisenhower event than did the last Reunion of the Blue and Gray (Civil War veterans) in 1938, the last event held here to attract national-wide interest.

The Associated Press transmitted by wirephoto 12 of its several hundred photographs, a record number. Two rival picture agencies transmitted similar numbers.

Hotel Gettysburg Chefs Allan Sprinkle and Walter Kaseberg headed the catering staff, the former supervising the buffet in the Press Tent and the latter for the delegates.

Other members of their crew were Allan Dubbs Jr., Jesse S. Hangen, Ernest Carter, Clarence Vanbrakle, John Ford, J. Edwin Faust, in charge of food service (Please Turn to Page 8)

FIRE DAMAGES 4 BUILDINGS; LOSS IS \$2,500

Damage totalling \$2,500 when two frame sheds, a frame garage building and a chicken house burned at the properties of Mrs. Edward Sanders and Addison Durbarow, Steinwehr Ave., Monday afternoon at 2 o'clock.

Fire Chief Donald Jacobs said firemen were investigating the possibility that the fire may have been set by a group of boys who had been playing about the structures at various times during the day. He said electric current running to the shed in which the blaze started had been cut off some time ago.

The fire started in a shed, about 10 by 15 feet in size, on the Sanders property. From there it spread to the Sanders garage, adjoining the shed to the east along an alley, thence to the Sanders chicken house adjoining to the west and to the two-story Durbarow shed which is located to the rear and only a few inches removed from the Sanders buildings.

Car Is Saved Chickens in the chicken house were removed as were automobiles in the Durbarow shed-garage. A car in the Sanders garage was removed when Chief Jacobs ran into the blazing structure and released the brakes. The car was pulled from the building.

Damage to her property was estimated by Mrs. Sanders at \$1,000. Mr. Durbarow placed his damage at \$1,500, firemen said. A large amount of hunting equipment, including coats, tents and similar articles, owned by Frank Mumper, who resides in the Durbarow house, and located on the second floor of the Durbarow shed, were consumed by the blaze. No estimate was immediately placed on the loss to Mr. Mumper.

NOTES SECURITY LAW CHANGES

Wage earners and self-employed persons planning to retire this year under the new Social Security Act should communicate with the York Social Security Administration field office, Clarence L. Anstine, manager, announced today. "Because of the nature of certain changes in the law, it is important that these persons know just how they may be affected by them before actually retiring," he said.

"Those who file application before July 1, 1952, will not qualify for the maximum benefit, except in rare cases," he declared. "And only in a few instances can the \$80 monthly benefit be paid before January, 1953. This is the main reason why those planning retirement this year should ask us where they stand."

The maximum retirement payment under the new formula is \$80 a month and the minimum is \$20 monthly, depending on the average monthly earnings.

Self-employed persons filing claims during 1952 will not receive as high a benefit as will be possible by delaying the filing until after the end of this year.

Anstine pointed out that beginning last January regularly employed domestic and farm workers, many self-employed persons, and others were brought under the provisions of the Federal Insurance system.

The York office is open from 9 a.m. to 5 p.m., Mondays through Fridays.

Booklets explaining the new law are available upon request, the manager said.

and then stood by in the event of fire. General Eisenhower arrived a bit before noon and he and I took a look at the farm accompanied by about 100 cameramen. They snapped pictures from every conceivable angle and we tried to obey their orders.

"After lunch, General Eisenhower talked to the delegates and answered any questions they wished to ask. About 3 o'clock they left and another contingent came and stayed until about 5 and then we had a little time to ourselves before the general left about 6 o'clock."

He told the group he looks forward to bringing General Eisenhower to a meeting of the local Rotary club in the near future. Eisenhower is an honorary member of the local club.

David Blocher Talks
David Blocher, a "third generation member" of the local club, both his father and grandfather having been members, spoke of his duties as a watchmaker at the meeting and showed a motion picture on the construction of watches.

Pointing out that the first actual watch was made about 150 years after the birth of Christ, Blocher said that through the centuries watches have become ever smaller and more accurately designed. "But no one ever has and no one ever will invent a watch that will keep perfect time," the local jeweler said. Changing conditions of weather, humidity, friction, the wearing out of materials all have their effect in preventing any time-piece from being perfectly accurate. A watch that does not vary by more than two seconds a week is better than average, he said.

The ordinary wristwatch will have approximately 150 parts and more accurate watches might have 200 to 250 parts, he added. He described the tests given by the Horological Institute of America from which he received the Certified Master Watchmakers Degree after graduating from a clockmaking school.

GRAND SLAM BY BOBBY THOMSON UPSETS CARDS

By JOE REICHLER

AP Sports Writer

Who said everything happens in Brooklyn?

How about the Polo Grounds?

Ever since Bobby Thomson cracked that pennant-winning home run in the final 1951 playoff game, the weirdest things have been occurring in the home of the New York Giants.

Look at what happened Sunday. The Giants were rolling along enjoying an 11-0 lead when suddenly the roof caved in. Before they realized what had happened the Cards won, 14-12.

Looks Game On One Pitch

Yesterday the Cards were leading 7-4, when the Giants came to bat. Two walks, a single, an out and boom. Thomson hit a grand slam homer to beat the Redbirds, 8-7.

That's not all. Willard Schmidt, who tossed up that gopher ball to Bobby, made only one pitch—and he was charged with the defeat.

The victory went to George Spencer, fourth Giant pitcher. He, too, made only one pitch. That was a double-play delivery to Del Rice to end the top of the ninth.

Phil Edge Pirates

Ironically, Thomson's game-winning homer came after the Giant third baseman had gone to bat 17 straight times without a hit.

In the only other game scheduled in the majors, the Phillies edged out the last-place Pittsburgh Pirates, 5-4, to move into sixth place past the Boston Braves. A triple by Richie Ashburn and a long fly by Granny Hamner broke a 4-4 tie in the seventh.

Interstate

By The Associated Press

The ding-dong pennant race in the Interstate Baseball League is holding true to form with the Hagerstown Braves perched in first, eight percentage points and half a game ahead the Williamsport Blue Rocks today. It is the fourth consecutive day the two clubs have switched places in the top two spots.

The Braves made up a three percentage point disadvantage and took command by splitting a pair of slugfests yesterday with the Salisbury Red Legs, losing the first, 13-2, and coming back in the second, 11-4.

Meanwhile, Wilmington was nipped by York, 3-2, in a single game, as the White Roses closed in to a virtual second place tie.

The other single contests went to Sunbury, 5-1, over Allentown and to Lancaster, by a 6-2 count over Harrisburg.

Southpaw In Girls' Game Tonight

Ruth Matlack, star left-handed twirler for the New York Nifties, is expected to see action tonight against the Philadelphia Fillies in the girls' baseball game to be played at 8:45 o'clock on the Recreation Park field. She formerly hurled for the Ft. Wayne Daisies of the All-American Professional League.

The two teams, now on a tour of the north-east section of the country, form the only known group of girls who use the regular size men's baseball and pitch from regulation distance. A wide variety of personnel will be included in the lineups of the teams including a school teacher, sisters, a young mother, and a dietitian.

The game is being sponsored by the Gettysburg team of the Twi-

light League and the Softball League. The advance sale of tickets assures a large attendance for the unique attraction.

Today's Talk

By GEORGE MATTHEW ADAMS
THAT GOOD AIM

When you meet a person and inquire about what he does, and he tells you with a sparkle in the eye, you know you are in the presence of an energetic and happy man. But if that person says he is doing nothing at the time—just looking around—your interest in that one sags at once.

We like to talk with people, and keep getting friendlier with them, when we learn that they have that good aim in life, and keep stepping ahead to attain it. We are inspired by those who have a purpose in life.

Said Robert Louis Stevenson: "An aim in life is the only fortune worth the finding; and it is not to be found in foreign lands, but in the heart itself." I was recently talking with a very fine singer and he told me, with enthusiasm, of his plans a year in advance. People like that seem so youthful, no matter what their age!

Pursuing an objective every day becomes a miniature triumph! We can't see our growth, but we can feel it. There are physical, mental, and spiritual responses that give a glow to the entire personality. The alert and successful keep going forward with their chins up!

For twenty years Robert Frost kept before him the desire to be a good poet and devote his life to poetry. During that period he farmed, taught school, lectured—but kept right on composing poetry. Finally the publication of a small book of his poems—in England, at that—attracted wide attention among those who are quick to scent genius, and Frost was acclaimed. Returning to his native land that good aim of his magnificently matured and he is today recognized as our greatest American poet.

With that good aim ever before us, failure doesn't get the chance to sidetrack us. Faith won't let it! It has been stated that a divinity shapes our ends. And William James once wrote: "Be not afraid of life. Believe that life is worth living, and your belief will help create the fact."

Tomorrow Mr. Adams will talk on the subject: "Keep Giving Credit."

Loved every mile of sea and shore;
The mountains, grave and dignified;
The lakes on which great vessels ride;
The forests deep, the open plains,
The city streets, the country lanes;
Its temples, with their varying creeds;
The playgrounds happy childhood needs;
The homes held sacred, large or small;
The golden glories of the fall;
The summer and the heartening,
Brave resurrection of the spring;
The winter snows that safely keep
The weary soles while they sleep.
He loved our country for the joys
The right allows and might destroy.

SOLDIER KILLED, 33 MISSING OR HURT IN BLAST AT 'AMMO' DUMP

HAERUNDE, Korea (AP)—A U. S. soldier was killed Monday and 33 other persons were missing or injured in thunderous explosions in the U. S. Army's biggest ammunition dump in Korea.

Two American soldiers are missing and four have been hospitalized, an official Army announcement said. Twenty-four others suffered minor injuries and returned to duty after first aid.

At least three Korean civilians were injured, added the announcement from the U. S. Second Logistics Command.

Suspect Sabotage
South Korean police said they suspected sabotage by guerrillas.

The first blast—cause unknown—broke windows and knocked down plaster in buildings in Pusan, 13 miles south. Two other huge explosions followed within 15 minutes. There was a fourth blast later.

Fires mushroomed in the area. Gray clouds of phosphorus smoke rose into the sky. Rockets shot widely about. Exploding flares touched up the scene with bright colors. Some shells and flames flew two miles. Grass fires flared up in the dry hills ringing the area.

Residents Flee
Some 30,000 residents of Haerunde—thatched-roof homes on fire—and nearby villages took off for safer areas.

U. S. soldiers in tanks edged into the still flaming outer reaches of the blast area late in the afternoon to survey the probability of additional explosions.

A mid-afternoon wind swung flames away from untouched areas of the dump, giving hope that further destruction could be halted.

The victim was Countess Krystyna Skarbek, 37, who served in France in actual combat under the French Maquisards and accomplished daring feats of sabotage against the Nazis.

Police picked up Dennis G. Muldowney, 41, a porter, for questioning and later brought him to court to be charged formally with murder. Chief Inspector G. W. Muldowney was ordered held for a hearing July 1.

TRUMAN IS ONLY POLITICO THAT'S HAVING FUN NOW

By JAMES MARLOW
WASHINGTON (AP)—President Truman is about the only politician having a good time.

Since he says he wants to vacate his present premises and has nothing to lose personally, he can sit back and enjoy the show.

It's a show the like of which hasn't been seen in these parts in 20 years.

Not Displeasing To Truman
The Republicans, especially the Taft and Eisenhower fans, are beating one another over the head with sticks that get harder every day.

Since that is an occupation which, if pursued with enough gusto, might wreck the Republican party, it can hardly displease Truman.

dents—at least those out in the open—are busy beating their gums.

Can Afford To Wait
Truman is letting them beat and hasn't named a favorite. He can afford to wait because his Democrats have at least one advantage over the Republicans in this campaign.

They hold their Chicago convention to pick a candidate almost two weeks after the Republicans have chosen theirs in the same place, a bit of political luxury enjoyed by the Democrats every four years.

This year, with their own race wide open, it may be quite a help to them—depending what the Republicans do—to be able to make a choice to fit the situation.

GOP Snarls Get Uglier
In fact some Democrats still hiding in the bushes with their suppressed desires for the White House may come charging out if they think the man the Republicans pick is one they can beat.

Once the conventions are over, Truman promises to take to the road for his party's candidate. He

TAFT, KEFAUVER POLLS APART ON LEADING ISSUES

By The Associated Press

The two candidates leading the delegate races for the presidential nominations have made it clear in face-to-face debate they are poles apart on both domestic and foreign issues.

Sen. Estes Kefauver of Tennessee and Sen. Robert A. Taft of Ohio voiced agreement on only one thing—that corruption in government will be a major campaign issue.

They clashed on a television program after Republican Sen. Wayne Morse of Oregon, also on a TV show, strongly indicated he will "take a walk" from the party—or at least will remain silent in the campaign—if Taft is nominated.

"Ike" in Denver
"It's very doubtful that with intellectual honesty I could possibly make a speech in behalf of Robert Taft," said Morse, a supporter of Gen. Dwight D. Eisenhower, "but I won't go out and campaign against him."

Eisenhower, about that time, was arriving in Denver to open a political headquarters. A crowd of 100,000 cheered him and his wife on their arrival.

Taft, in an earlier TV program, said he would never run for President again if he failed to win the nomination this year — while expressing confidence he already has almost enough delegates to win it.

"Hottest Broadcast of Year"
But the fireworks were in the second program, which Taft himself called "the hottest broadcast of the year"—though he may have been referring to the weather.

Kefauver accused Taft of "showing the same isolationist policy as before World War II, when he voted against lend-lease, selective service, and everything else." He ignored Taft's "Oh, no!" protest to add Taft voted on both sides of the Point Four program to help undeveloped nations.

Taft called this an unjustified slur and went on to attack the administration's domestic and foreign policies, many endorsed by the Tennesseean.

List 3 Main Issues

The two listed what they considered the three main domestic issues: Taft's—corruption in government, excessive government spending, and excessive power of the federal government; Kefauver's—maintaining prosperity for the workers, farmers and businessmen; combating inflation; and corruption.

Out west, Eisenhower's reception was perhaps the warmest he has received in his short political career—a career the next three weeks can make or break as he tries to swing GOP convention delegates to his side.

Before leaving for Denver, he told a Detroit news conference that he disagreed with Taft on the issue of confidence in the Joint Chiefs of Staff; made it clear he would not, if elected President, bring Gen. Douglas MacArthur into the government (Taft has said he would); and defended his previous statement that it is possible to cut the federal budget by as much as 40 billion dollars in the next few years.

Eisenhower scheduled a relatively quiet day in Denver Monday with some golf and relaxation.

In his Detroit press conference, Eisenhower said he favored lowering the voting age from 21 to 18 years; is "very, very hopeful" no more American troops will have to be sent abroad; believes the U. S. should build its military strength until it can show the world "we are strong enough to be unafraid."

REOPEN NEWARK AIRPORT MON.

NEWARK, N. J. (AP)—Newark Airport was reopened to commercial traffic Monday and the first plane to land was a four-place charter plane from Stroudsburg, Pa., carrying a pilot and two passengers.

All runways and ramps at the huge airport—closed for four months—were brilliantly lit up at 12:01 a.m. EST, the official opening time set by the Port of New York Authority. The paper clipper skinned in at 7:42 a.m. EST, and airport personnel were all ready and waiting.

Newark Airport was padlocked by the Port Authority Feb. 11 in the wake of three plane crashes in nearby Elizabeth that took 119 lives. The authority announced the re-opening date last Thursday above protests from residents near the airport.

Along with the reopening comes a set of new special restrictions for the airport's operations. Strict curbs on use of certain runways, and new minimum flying-weather conditions are to be enforced.

BEST WAY TO GET TO 100 IS TO BE BORN A WOMAN

By HAL BOYLE

NEW YORK (AP)—Do you want to live to be 100 years old? There are more people trying to reach this goal every year, and the best way to start is to be born a girl.

Just as women can hold on to a dollar better than men, they now hold on longer to life. Lady centenarians outnumber gentlemen centenarians by a wide, wide margin. You can't beat the feminine matter of piling up years. They won't let go of a good thing.

Key Is Imperturbability

How can men live longer? That is very easy. Take a tip from the girls, fellows. Live like they do. Take it easy.

Dr. Morris Fishbein gave the key to longer life the other day: "Imperturbability." That is a seven-syllabled word meaning "calm down—don't get excited."

Women instinctively and by preference lead quieter lives than men. They conserve their energy better. Men can get excited over any trifling thing, and do. Nothing really excites a woman except—well, except, possibly a man. And as soon as she gets him she again usually resumes the even tenor—I mean soprano—of her ways.

This was crisply put by a lady centenarian some years ago, who explained her victory over time by saying:

"Whenever I had an emergency in my life, I met it by going to bed."

Most housewives intuitively know this is good advice. What happens if something at home upsets them? They don't pound their heads against the kitchen wall. They go into the bedroom and lie down and have a nice, relaxing cry — and arise refreshed.

There is no reason why a man can't follow this example in office or factory. If a crisis comes up, my boy, don't blow your top. Simply lie down on the floor and rest while you think it over. The boss may stare at you the first time or two. But after you explain the reason to him—that you are only trying to live longer—he will tell you to move over so he can lie down and live longer, too.

Wives are proverbially late getting dressed for an evening out. But it is only because they know that hurry is killing.

But what does the waiting husband do? He loses his temper, he starts ranting:

"You're always late. You never are on time. You—"

You Be The Late One

Up, up, up goes his blood pressure. Down, down, down goes his life expectancy.

Why don't you try dressing more slowly yourself, mister? You be the late one. If your wife starts raving at you, just smile sweetly and say:

"I warn you, dear, you're just taking years off your life getting mad this way."

Women are wonderfully adept at avoiding pressures and strains. A wise man will imitate them. A girl at the movies will remove her shoes if they pinch her feet. Why shouldn't a fellow interested in his own longevity take off his shoes, and also unbuckle his belt, unbutton his vest, take off his necktie and open his shirt collar? Never mind what the usher says. Did he pay his way into the theater?

One of the greatest drains on a husband's energy is reaching for a pocketbook to pay his wife's bills. The next time there's a bill to pay make her reach for your pocketbook.

Get her into the habit. Use up her strength. Little will she know that every time she does it she is shortening her life and increasing your own chances of living to be a merry old widower.

Of course you can live to be 100. All you have to do is learn to beat women at their own game.

Spanish War Vet Dies In Cleveland

CLEVELAND (AP)—John R. Dillon, for 29 years legal counselor for American Steel & Wire Co., died on Sunday at Crite Hospital after a brief illness.

A veteran of the Spanish-American War, he worked as chief probation officer for his native city, Washington, D. C., from 1906 to 1912, when he obtained his law degree from Georgetown.

He then went to Pittsburgh with the U. S. Department of Justice, joining the U. S. Steel Co. in 1918. A year later he transferred here with American Steel & Wire, a U. S. Steel subsidiary.

FINE CLOSER TO EISENHOWER

SCRANTON, Pa. (AP)—Gov. John S. Fine, in a radio interview, has indicated he is much more favorable towards the candidacy of Gen. Dwight D. Eisenhower than he was three months ago.

During the interview Saturday, Fine said the foreign policy views attributed to the general three months ago were so much in conflict with Fine's that he had all but ruled out the general as his candidate at the Republican National Convention in Chicago next month.

After talks with Eisenhower, Fine added, he changed his mind and now believes the position of the general and that of his major opponent, Ohio Sen. Robert A. Taft, are very close.

Fine also said he would join a coalition of delegates without hesitation if he were convinced it was for the "betterment of America."

This was in reply to a question about a reported Pennsylvania-Maryland-Michigan bloc of votes.

Fine, who previously denied any knowledge of the tri-state coalition, added that he did not expect any such development on the political scene and that he hasn't "the slightest desire to control the action of the Republican (National) Convention."

HARRISBURG (AP)—Gov. John S. Fine Monday greeted the two winners of the Christian Endeavor Union's recent international essay contest—a Pennsylvania minister and a Kansas church worker.

The Rev. Clarence Kopp, assistant pastor of King Street Church of the Brethren at Chambersburg, and Miss Maxine Bond of Plains, Kan., associate president of the Kansas State Christian Endeavor Union, were given an informal reception in the governor's office.

HARRISBURG (AP)—George Criswell, 28, a truck driver, was held for questioning in the Dauphin County jail Monday in the shotgun death of his wife, Mrs. Grace Criswell, 33, mother of two children.

COUNTY TROOP PLACES SECOND AT SCOUT CAMP

A statuette for outstanding all around camping was presented to Troop 32, St. Patrick's Catholic Church, York, at the eighth annual York-Adams Area Catholic Boy Scout retreat at Camp Conewago, Dick's Dam, over the week end.

The trophy, the first of its kind to be given in the area, was presented by Nicholas D. Murphy, Hanover, camp director, to the unit. It was received by Scoutmaster Ray Rudisill on behalf of the troop. The statuette will remain in possession of the troop.

Medallions commemorating the 75th anniversary of St. Joseph's Catholic Church, Hanover, were presented to the 202 scouts and leaders participating at the closing ceremonies Sunday morning. Attendance

streamers for troop flags and awards for games during camp also were presented.

Second honors in the statuette judging was awarded to Troop 86, Immaculate Conception Church, New Oxford, while third place went to Troop 47, St. Joseph's Church, Dallastown.

Rev. Stephen J. Hribick, moderator of all youth activities of the Harrisburg Diocese, was retreat master for the camp which opened Friday evening.

Assisted By Students

He was assisted by the following seminarians, all former scouts: Thomas Smith, Edge Grove; Larry and Hugh Overbaugh, Thomas Hemler and Loyola Krepps, all of McSherrystown, and C. Helfrich, Dallastown. Camp Director Murphy was in charge of camp fire ceremonies Friday night.

Units participating in addition to Troops 32, 47 and 86 were: Troop 12, St. Rose of Lima Church, York; Troop 47, St. Joseph's, Dallastown; Troop 61, St. Joseph's, York; Troop 78, St. Francis, Gettysburg; Troop 82, Conewago Chapel, Edge Grove.

Also, Troop 103, St. Joseph's, Hanover; Troop 106, Immaculate Heart of Mary, Paradise Protectors; Troop 107, Annunciation of the Blessed Virgin Mary, McSherrystown, and Troop 108, St. Vincent's, Hanover. First aid facilities were provided by Charles H. Weaver and Cyril Klunk, York, instructors of the York County Red Cross Chapter. They

also assisted Nicholas and Thomas Murphy and Joseph Kagel in judging for the statuette award.

The meals were prepared by Lawrence Long, Edward Groft, Edward Fuhrman and George Livelsberger, all of McSherrystown. Arrangements were in charge of Charles L. Weaver, Hanover R. 4, area scouting lay chairman.

2ND SWEDISH MILITARY PLANE LOST IN BALTIC

STOCKHOLM, Sweden (AP)—An unarmed Swedish military plane was shot down Monday by two Russian MIG-15 fighters but its seven-man crew was rescued later at sea by a German merchant ship, the Swedish Air Force Command announced.

Two of the crew were reported wounded. The men said they had been attacked seven times by the Russians.

The plane, a slow-flying unarmed Catalina rescue boat, had been searching for a Swedish Air Force transport missing since Friday with eight men aboard. It was feared that this plane, too, had been downed by the Russians, who are reported holding vast air-sea maneuvers off the Soviet Baltic coast.

Eight minutes after the attack report, the Air Force said, the plane—a slow-flying, unarmed Catalina air-sea rescue craft—was last seen flying low in a westerly direction, toward the Swedish coast 80 miles away.

Baltic fishermen have reported that hundreds of Russian jets, submarines and surface warships have been operating in the Eastern Baltic, between Danzig and Finland, apparently in vast combined exercises.

The Catalina's pilot reported at 4:10 a. m. that he was being attacked and would try to return to his base. He said he then was about 30 miles northwest of the Russian-held island of Hiiumäe (Dago). That report indicated the plane

SENATOR TAFT GETS HELP FROM POLITICAL 'PROS'

By JAMES MARLOW
WASHINGTON (AP)—Win or lose, at least Sen. Taft has had expert help in trying for the presidency. The men around him are a bunch of pros.

There are two Taft headquarters. The one here, the political headquarters, is called the "Taft Committee." The other, in New York, is named "Citizens for Taft." Eisenhower has a political headquarters here and another in New York, called "Citizens for Eisenhower."

In addition to regularly paid staffs, both men get office help from volunteers. And there are various Taft and Eisenhower organizations around the country.

Widener Non-Pro
Taft's cousin, David S. Ingalls, is chairman of the Taft Committee here. The New York headquarters is headed by Lt. Gen. Albert Wedemeyer, the only non-pro in this story.

Like Taft, his cousin Ingalls is an Ohioan, a lawyer, and a Yale man. Besides time spent as a Navy captain and undersecretary of the Navy, the gray-haired, pleasant Ingalls has been in politics since the 1920s. He helped Taft in his successful campaign for reelection to the Senate in 1950.

Thomas E. Coleman, a lean and sharp-eyed industrialist from Madison, Wis., is one of the key men around Taft. He was Harold Stassen's campaign manager in 1948, when Stassen got nowhere. He's in charge of Taft's campaign in the Midwest, where he's been in politics a long time. The Taft people picked him to be their floor manager at the convention.

No Amateur Publicity
Still in his 30s, Richard L. Guy-lay handles Taft's publicity. Although his regular job is with a New York public relations firm, he's no political amateur either. He steered Taft's publicity in that 1950 campaign.

Then there's John D. M. Hamilton, who was chairman of the Republican National Committee back in the 1930s when Gov. Alf Landon got the Republican nomination but lost in crushing defeat to President Roosevelt.

Two other top Taft lieutenants are congressmen: Clarence Brown, an Ohio publisher, and Carroll Reece of Tennessee, who has been an educator as well as a politician. Both have been in politics for years.

As Dewey's failures showed, the pros around you can't always win

was about 60 miles west of the coast of prewar Estonia, now part of the Soviet Union, and about 110 miles east of the Swedish coast.

The air-sea search of the Eastern Baltic area was stepped up following the disappearance of the second plane. It had been assumed that the transport which disappeared Friday was shot down by Russian fighters.

Two years ago a U. S. Air Force Privateer aircraft disappeared in the same Baltic area. The Russians later admitted their fighters downed it.

STEEL STRIKE CUTS DEEPER INTO ECONOMY

PITTSBURGH (AP)—The steel strike slashed deeper into the nation's economy today as some plants making war munitions reported curtailments near because of a shortage of steel.

In addition to the 650,000 CIO steelworkers who walked out June 2 when the U. S. Supreme Court ruled President Truman had no right to seize the industry, more than 100,000 workers in allied industries are idle.

These include nearly 50,000 coal miners in seven states including 29,000 in Pennsylvania, and more than 30,000 railroaders employed by a dozen carriers.

Nearly 25,000 more are idle in industries dependent on steel. These include sailors on Great Lakes ships, and many others in the shipbuilding industry.

you the presidency. But they're a big help in getting you the nomination.

Lakes ore boats, ore miners, coke workers, river boat crews, oil and gas pipeline workers, construction crews, and workers in other steel-related fields.

Mortar Shells, Tanks, Rockets
Announcements that three companies will be forced to stop making munitions this week came as the government and the United Steelworkers sought to work out a plan to start enough steel flowing from the struck mills to prevent a crippling halt in the production of weapons.

At Cleveland, Lempco Products, Inc., said it was forced to halt making mortar shells.

The Oldsmobile Division of General Motors said a shortage of seamless steel tubing will force it to shut down its 3.5-inch rocket plant at Lansing, Mich., on June 23.

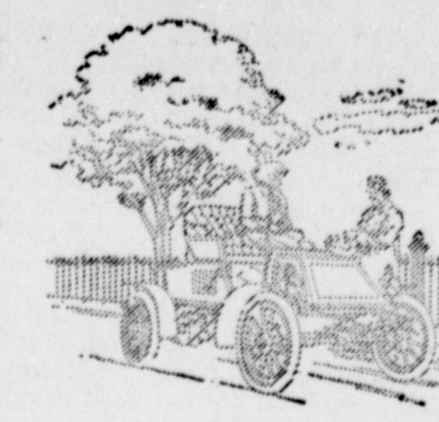

In Detroit, it was reported the Ford Motor Company may be forced to close down rocket pro-

duction before the end of the week. Officials of the General Motors Cadillac tank plant at Cleveland said it has enough steel for from 10 days to two weeks of operation.

The government has been assured by Philip Murray, president of the CIO and the USW: "Count on us to produce the essential military products necessary to carry on our fight against the menace of Communist aggression."

So far the government has announced no specific way of achieving this output.

HOT WEATHER HELPS BOOST ACCIDENT TOLL

By The Associated Press

Week-end traffic accidents in Pennsylvania killed 11 persons.

Other tragedies claimed the lives of 10 more.

Several deaths were indirectly blamed on Sunday's hot, humid weather which sent thousands to parks and swimming pools. Five persons drowned and a sixth died of a heart attack while swimming.

Washington, Pa., had the highest official temperature—100 degrees.

Pittsburgh and Philadelphia both reported their warmest day of the year with 90 and 94 degrees, respectively. Both figures were one degree below the record for the date.

Other High Reading

Allentown had 94 degrees and Williamsport and Middletown 93 degrees, their hottest of the year.

Eight of the highway fatalities and seven of the miscellaneous deaths occurred in Western Pennsylvania.

An auto-truck collision near Philadelphia killed D. Russell Chase, 58, superintendent of the No. 2 mine of Penn Coal and Coke Co., Galitzin; his mother, Mrs. Lois Clark, 76, of Miami, Fla.; and his 17-year-old son, Bernard.

Auto Toll Heavy

Charley Hurley, 20, of Niles, O., and Stanley Spier, also 20, of Apollo, Armstrong County, were killed in a two-car crash near Apollo. Four others were hurt.

Two cars collided head-on two miles north of Tyrone in Blair County, killing Leonard H. Veindeffer, 33, of Hyde Park and slightly injuring four other persons.

In Monongahela, a passing auto killed Veda Louise Ellis, 7, of Aliquippa. The body of Taylor Bice,

63, was found on Sunday on a road near his home in Marianna, Washington County. He apparently was the victim of a hit-run driver.

Young Boy Drowns

Leonard Oleson, 6, of O'Hara Township, near Pittsburgh drowned in the Allegheny River at the Highland Seaplane Base near Aspinwall. At New Castle, Martha Jane Black, 18 months, drowned in a five-foot wide pool in a neighbor's yard. Homer P. Degaries, 76, of Roaring Spring, suffered a fatal heart attack after swimming across a quarry hole pool about three miles from his home.

The heroic effort of 48-year-old Ada McKnight to save her mother, Mrs. Daniel McKnight, 82, from fire cost her life on Sunday as both women perished in flames which destroyed their home at Six-Mile Run, near Bedford.

Edward Knorr, 52, of Pittsburgh died of burns suffered in an explosion when he apparently tried to light a cigarette in his gas-filled North Side apartment.

Many Young Victims

Robert Davis, 11-year-old Johnstown youngster, died of injuries suffered when struck on the head by a baseball. Death was attributed to a cerebral hemorrhage.

Four children, two 14 and one 15, and one 11, drowned in the eastern part of the state.

Near Halifax in Dauphin County, James Leitzel Jr., 14, tried to rescue his sister, Jane 11, who called for help when apparently stricken by cramps while bathing. The bodies of both were recovered shortly after they disappeared from sight.

On a farm near York Eugene A. Keller, 14, drowned in a quarry hole while bathing in about 15 feet of water. His father, Christian P. Keller, told authorities the boy could not swim.

Samuel Frederick Holland, 15, of Philadelphia, lost his life when he failed to come up after diving in Pennypack Creek.

Patagonia is in southern South America.

(Continued from Page 1)

at the hotel, Betty Anzenberger, Phyllis Yingling, Doris Nune-maker and Grace Waring, of the dining room staff, completed the catering list. Stewart Witherow, the hotel engineer, looked after transportation and equipment and supplies.

Nearly a ton of food was consumed by the 500 people served at the farm.

Dick Smith and his crew, of People's Transfer, spent 16 hours hauling chairs, tables, dishes and other equipment. Besides that which came from the hotel, tables, chairs, china and silverware was provided by Gettysburg College, tables from the Gettysburg Elks and chairs from the national cemetery.

No chances were taken on showers the possibility of which was predicted in weather reports of the day before. A crew of four men stood by Friday ready to erect a large tent for the delegates at the first sign of a threatening cloud.

Hotel Gettysburg served all purposes during the day. The lobby was thronged in the morning for the registration of delegates, alternates and the press. Special guests and various county chairmen assembled in the lobby during the afternoon and were registered there prior to going to the farm after the main event.

The hotel dining room was a bee-hive all day. Following luncheon the large air-conditioned room was converted into a press room. Then it became a press-conference room when Governor Fine and the delegation arrived. After the conference it again reverted to a press room. At the dinner hour it was again functioning as the dining room.

The staff remaining at the hotel doubled in brass—secretaries, room clerks, bellmen, waitresses, cooks, kitchen staff, bartenders, firemen and maids all doing whatever was necessary to be done. The result was that service at the hotel was not curtailed in a single instance despite the heavy demands of hundreds of people who had to be cared for throughout the day.

Western Union maintained a courier service at the farm and hundreds of dispatches involving tens of thousands of words were sent from the hotel before and after the press conference.

Victor Re, local contractor, withdrew a crew of carpenters from one of his jobs Thursday afternoon to construct extra sanitation facilities at the farm for the large crowd the next day. The facility was built in record breaking time.

were enthusiastic with the arrangements made for them. They described the facilities placed at their disposal as the best and were high in their praise of Gettysburg.

C. L. Eicholtz, New Oxford typewriter man, answered a last minute call with 15 portable typewriters for use of the press Friday afternoon at the press conference.

Glenn L. Bream responded to the call for an open car and driver on Thursday when it was determined that General Eisenhower would make a stop in centre square.

Judge W. C. Sheely and Burgess Wm. G. Weaver personified complete participation of the county and the borough in the welcome home to General Eisenhower. They did a grand job for the community.

The occasion emphasized WGET's value to the community. Thousands of people all over Adams County and in neighboring Maryland who could not be in Gettysburg participated in the welcome through WGET's coverage of the event.

The Gettysburg Times news staff alternated during the day covering phases of the event. Friday's edition was the first paper at hand with complete coverage of the conference and the goings on in Lincoln Square and at the farm. Visiting newspaper men were highly complimentary of Thursday's and Friday's editions.

To General and Mrs. Arthur Nevins the highspot of the day was the late afternoon and early evening hours at the farm when everyone was gone and they could discuss farm matters with Eisenhower, "Ike" and a few members of his staff were dinner guests of the Nevinses at the farm that evening.

Murray Goldsborough, WGET manager who handled the event in centre square, had an anxious moment when he rolled in his wire after "Ike's" speech. He found the extension plug separated but at the moment did not know how long it had been separated. Fortunately, the cord was kicked apart in the milling of the crowd but not before Eisenhower's speech was finished.

The events of the morning and afternoon did not detract from the Elks annual flag ceremony that evening. The Flag Day program is an inspiring event and a square was thronged with participants for the second time on Friday to witness it.

Everyone described Gettysburg's handling of the big event as perfection itself. It shows what the community can do when everyone pitches in.
